

**2019**

## **School based Subject Offerings Year 10/11**

In 2019, Capricornia School of Distance Education will be offering regional and rural students in Years 10/11 the chance to enrol in a subject that is not offered at their base school due to course choices, class size or timetabling problems. Students can enrol with CSDE for up to 2 subjects without affecting FTE at their base school.

Students enrolled with CSDE would be expected to attend 3 x 70 minute lessons weekly and would be supported with face to face contact at least once a Semester. To access lessons students require access to scheduled lessons via Blackboard Collaborate and course content via Virtual Classrooms. It is essential that students have access to a computer, quality headset and supervision at the base school. Students enrolled with CSDE would require some flexibility from the base school to work in with the CSDE school timetable.
